(Note – a client record must be on file also)

Pet name(s):

Contact phone number during boarding:

Alternate number:

Time span of boarding: drop-off on:

pick-up on:

Estimated time of pick-up (optional):

Grooming – circle the appropriate: I (do / do not) wish for my pet to be bathed or groomed before my return at an additional cost.

Food provided by owner: (yes / no) If so, please describe:

Medications. Please list any medications provided by owner and describe current instructions:

Towels/blankets/toys. Please list/describe any provided:

Exercise/recreation (dogs only): Typically, clinic staff allow dogs to eliminate behind the clinic in the enclosed grassy space. When time permits, energetic pets may have a chance to play fetch or similar activities. Please indicate below if you have any objections to such activity for your dog, or if you think your dog would be likely to climb out or escape from the enclosure behind the clinic.

Stipulations for boarding of cats and dogs:

1. Capstar (oral flea removal product) will be administered upon entering clinic for boarding at an additional cost of \$6.00 per pet. If fleas are discovered on your pet upon returning home, please contact the clinic promptly (within 2 hrs).
2. Boarding can be stressful on pets that are not accustomed to boarding, particularly elderly pets. Stress can result in decreased appetite, diarrhea, or aggravation of pre-existing, diagnosed or undiagnosed health problems. The

clinic veterinarians and staff work diligently to monitor the condition of pets while boarding and keep owners informed, but no guarantees can be made as to how a pet will respond to boarding. cont'd on back

3. Pets must be currently immunized by a licensed veterinarian. For pets vaccinated by a veterinarian other than at The Animal Care Center, we must have documentation to prove such immunizations. In the event that such vaccination proof is not provided, or we are unable to promptly confirm such immunization by telephone, the pet will be immunized by The Animal Care Center at the owner's expense.
4. It is possible that personal towels, blankets, or toys may be soiled, broken, misplaced, lost, or in the washing machine at the time of the return of the owner. Please do not leave any items of any significant monetary value.
5. For any pet staying longer than 1wk, arrangements must be made with front desk to make payment in advance or weekly, while the pet boards.
6. Space for boarding is limited, particularly at certain times of the year. We do our best to honor all reservations. For this reason, a surcharge may be assessed for pets left beyond the time reserved.

Emergency Treatment Option (most important for elderly or ill pets).

In the event of unanticipated illness (vomiting, diarrhea, loss of appetite, etc), I authorize the doctors of The Animal Care Center to provide preliminary necessary treatment up to the extent of \$150.00. This is important because at times additional time is required to make contact with traveling pet owners.

Please circle: (yes / no)
